

Build Your 2024 Tech Roadmap Today!

Take Advantage of Our Advisory Services in 2024!

Did you accomplish all of your IT goals in 2023? Are you ready to build the momentum you need to make a real impact in 2024 and beyond? Are cybersecurity and strategic IT planning on your mind?

The Cyber, IT and Cloud Experts at Think|Stack are offering a FREE Credit Union Technology Roadmap when you purchase a \$20,000 block of hours or more for ANY Think|Stack Technology Project! Our blocks of hours provide you with discounted labor rates, starting at 5%. The larger the block, the more we can get done - and the higher the discount!

What's Included In Your Free 2024 Technology Roadmap Session?

01

Top level review and documentation of your current state: network, cybersecurity stance, cloud readiness, NCUA compliance

02

Creation of a 3-year Technology Roadmap prioritizing immediate threats/opportunities, and highlighting areas for long-term investment

03

Collaborative creation of a 2024 IT Budget Planner that combines your business objectives, available resources, and your Technology Roadmap to create an actionable plan you can share internally and use as a guide in the year ahead

Ready to get started? Contact Think|Stack today at:

Some of the many ways you can use your flexible \$20,000 block of hours

Hours have a 2-year shelf-life and can be used on anything through 12/31/2025

ASSESSMENTS:

IT Security Assessment

Cloud Readiness Assessment

IT Management & Governance Scorecard

ADVISORY SERVICES:

- Disaster Recovery and Incident Response Planning: Creating, Testing, and Training Key Staff
(ex: tabletop exercises)
- Creating Alignment: Getting Your Board, C-Suite, and IT Staff on the same page
- Silo Busting IT: How to Create a Well-Oiled Machine When it Comes to IT
- Budget Planning: The 3 IT Budgets You Need for 2024 (Business Support; IT Excellence; Innovation)

STRATEGIC PROJECTS:

- Microsoft 365 Tenant Security Review
- Cyber policies and procedures - review and updates: create a plan that goes beyond compliance and makes your organization more secure and truly prepared
- Application review - what are you using? are you using the apps full potential (ex: security features & automation)? How much overlap do you have?
- Resource review - aligning needs, projects, support and maintenance with available technical resources
- Org chart review and creation to deal with modern needs of IT, cyber risk and strategy

Your Technology Roadmap will help with 2024 planning and identify your IT priorities. Our flexible block of hours approach enables you to choose the right projects at the right time over the course of the next two years.
